A Message to Campbell Parents:---

Thrifty Boys Make Successful Business Men

The success of your boy, to a large extent, will depend upon the start you give him early in life.

It is not the amount of money you leave him so much as it is the kind of habits he learns from you.

Are you teaching him to save money?

This bank encourages boys' accounts and pays 4 per cent. interest.

Boys' Conference Big Success

The County Y. M. C. A. held a very successful older boys conference here last week, closing with union services at the Methodist church Sunday evening.

The several speakers at the meetings dealt with the various problems of boy life and the methods of meeting and battling with them.

The enthusiasm over this first conference speaks well for future gatherings and is a compliment to Mr. Douglas' splendid work.

The older boys of the Santa Clara County Young Men's Christian Association, assembled in this, their first annual conference, recognizing that the success of the gathering is due to the inspiring addresses of Mr. H. O. Hill, Mr. J. D. Crumney, Mr. R. P. Anderson, Mr. R. R. Perkins, the students from Stanford, U. of C. and the College of the Pacific together with the talks of the High School boys; to the excellent music of the Cardinal Male Quartette; to the Ladies' of the Campbell churches who served the meals so splendidly; to the newspapers who gave such full announcements; to the homes so kindly opened to the delegates; and to the churches and High school for the use of their buildings for the Conference do hereby,

Resolve—That to these and all who so unselfishly helped to make the gathering one of enjoyment and profit we offer our fullest thanks; and be it further Resolved—that to our County Secretary S. Warren Douglas, who has shown himself our wise counsellor as well as true friend and fellow, we pledge our loyalty during the coming year.

F. A. U. Boosters Meet In Campbell

The Booster meeting of the F. A. U. held with Palm Leaf Lodge Saturday evening was a grand success, ten lodges being represented with 180 in attendance. Palm Leaf Lodge having the best attendance, won the prize of five dollars offered by the Organizer, W. S. Lacey.

The lodge opened under direction of its president, C. H. Whitman, after which the newly organized drill team, under the captaincy of Mrs. Jessie A. Campbell took charge. It was a pretty sight as they marched into the room and took their places, the captain carrying the American flag, the team dressed in white and wearing badges of red, white and blue.

They initiated four candidates, doing most excellent work and being letter perfect. For this they won the prize of \$10.00 offered by Mr. Lacey, and a solid gold emblematic pin for the captain.

The team is composed of Mrs. C. S. Inman, Mrs. Bessie Lloyd, Mrs. Flora Crow, Robert Scholz, C. H. Whitman, and Messrs. and Mesdames Coupland, Burns, Lancaster and Bulmore. Mrs. Marie Scholz, who acted as musician, was presented with a beautiful bouquet of carnations by the captain and team.

Under "For the Good of the Order", Dr. J. W. Kramer of San Jose gave a good address on having a mission in life and being of service to the world; an address of welcome, W. R. Coupland; response, Ernest Caldwell of Los Gatos; and remarks by the organizer, W. S. Lacey on "Loyalty".

The assemblage was then served with coffee, sandwiches and doughnuts and this closed an evening long to be remembered.

The next booster meeting will be held at Redwood City sometime in April.

Enjoying California

Mr. and Mrs. M. S. Porter of Windom, Minn., are the guests of Mr. and Mrs. G. L. Parso of Hamilton avenue, who are showing them the beauties of our part of the state. The party spent the week-end at Pacific Grove with Mr. and Mrs. A. S. Collins.

Mr. and Mrs. Porter came to the southern part of the state last fall making the trip overland in their auto, enjoying the trip immensely. The following is the advice that Mrs. Porter has composed for her friends back East.

Come by auto to California so that you can have your car after you get here. California seems far distant But if you have got a "Ford," You can safely climb the mountains With all you have on board. You can skim across the desert Like a bird upon the wing. Over rocks, thru sand and chuck holes Just as slick as anything. And the country's panorama Greet's your vision as you fly. Like some great, vast moving picture On the screen before your eye. And you see in all its beauty, Nature's wondrous art enshrined In the azure of the heavens. It is glorious to man's mind. If you do not travel this way, It will surely be your loss. Let me whisper in your ear, friends "Get a Ford and come across."

Japan--vs--Boston

Four solid train-loads of beans from the Orient, valued at over a million dollars and constituting the largest single movement of this commodity ever coming to the United States have arrived in San Francisco to be trans-shipped by the Western Import Company to eastern markets. The Southern Pacific has already started one train of twenty-nine cars over its Ogden route to New York. Three others will be required for the total shipment which amounts to 65,000 bags.

The consignment is being handled by the Western Import Company which has been working for the last seven years to introduce them in America. They were brought here from Japan on the steamship Kotsu Maru.

The beans are of all varieties and their appearance here is one of the new developments that the European War has brought about in this country.

Chas. Berry Not a Candidate

Chas. Berry has requested that it be made public thru the columns of the Press that he is not a candidate for reelection to the school board. Mr. Berry has been a member of the Board for the past eighteen years, where he has served faithfully and assisted in the constant progress of the schools which have made rapid strides in all modern educational equipment. As Mr. Berry is quite determined on this matter, those interested are casting about for a suitable successor.

FRESH VEGETABLES ARE SCARCE

It's hardly necessary to remind the housekeeper that good fresh vegetables are hard to find. She has been having painful thoughts on this very subject for some time. Frosty nights are not conducive to early vegetables. Under the circumstances it isn't surprising that there is a strong demand for the canned product.

Glance over this list, make a selection for tomorrow's dinner, and say, "Nothing to-day", to the vegetable-man.

Bureau Profitable

The tremendous increase in the business of the Public Employment Bureaus of the State of California is shown by State Labor Commissioner John P. McLaughlin's report for February, as compared with the first month's business, February, 1916. The San Francisco bureau last month filled 1259 positions as against 136 positions for the same month a year ago. The Sacramento bureau filled 304 more positions last month than February, a year ago, and Oakland beat the record on the same month comparison by 428 positions. These three bureaus, last month filled 2127 positions, as compared with 272 positions filled during the opening month, February of last year. The Los Angeles office filled 996 positions last month, making a total for the four bureaus of 3123 positions.
Since the state went into the employment business, the San Francisco, Sacramento and Los Angeles offices, have filled 53,116 positions and saved the employes about \$110,000 in fees, shows the large volume of business the state is doing along the employment line. During this period 46,900 men and women have made application to the state for work, and the state had 67,734 positions to fill. 63,417 men and women were carefully selected for these positions and the bureaus have to their credit the fine showing of having the employers accept 85 out of every 100 employes sent them.

Yreka—\$70,000 high school to be voted on here March 31.

Fresno—Tulare county votes \$2,200,000 bonds to construct 203 miles of highway similar to state highway.

Northern California assured first money out of state bond issue which becomes available in July.

Anaheim—60,000A in Orange county planted to sugar beets and prospects best in history for record crop and price. Improvements being rushed on sugar sugar factory.

THE Prune and Apricot Association parade "Blossom Day" was a most gratifying success, there being 750 autos in the procession when it arrived at the Blossom Festival. Such enthusiasm promoters are of great benefit to any cause and this one is bearing fruit in the daily sign-up of the fruit growers. One man asked to join in the parade stated he would help with his auto at a funeral but didn't believe in this kind of advertising. In other words, he was willing to aid in burying a dead one but wouldn't assist in boosting a live one. Some philosophy.

Grangers Busy

Orchard City Grange No. 333 Patrons of Husbandry held their regular meeting Tuesday evening, with a good attendance. One application for membership was voted on and six others were received. Good reports were made by all the different committees. H. G. Keesling told of his trip to Sacramento, in company with representatives of other organizations in the interest of a deciduous fruit experiment station and of another meeting held Tuesday with Regents of the University of California.

That the influence of the Grange extends beyond our own community, and the ideas of its members are considered of value was proven by a letter received by the secretary and read before the Grange, from a fruit grower at Gilroy in regard to the benefit of summer irrigation as practiced by many of our members. An account of experiences for several years will be given the writer.

The first and second degrees will be conferred at the next meeting.

The Lecturer's hour was spent socially in the banquet room where light refreshments were served. Each member was given two conundrums on a slip of paper. The attempts at solving them and the correct answers caused much amusement.

Recruits Enlist With Local Companies

Captain C. L. Mitchell and Lieut. L. L. La Hue, 5th Regiment California Infantry National Guard visited Campbell this morning for the purpose of establishing headquarters for the enrolling of prospective recruits for Companies "B" and "M" which are located in San Jose.

Able bodied men between 18 and 45 years of age of good moral character who are citizens or have declared their intentions are eligible.

The Companies will leave San Jose in about a week for the mobilization Camp at the Presidio of San Francisco after which they are at the orders of the Commanding General, Western Department, United States Army.

150 men are needed immediately for each company and as war is imminent a sense of duty should prevail upon the young men to promptly volunteer their services at once.

Prospecting recruits may leave their names at the Interurban Press office and they will be telephoned into San Jose—transportation furnished and on arrival and enlistment, meals, clothing and lodging will be provided.

"This war is slipping up on us so quietly," said Major L. M. Farrell yesterday, "that we will be right in the middle of trouble before the people realize just what has happened. We need men, we need them immediately and we need lots of them. We must have more than 200 men to fill up the two local companies and they must be had within the next few days. We are liable to be called out at any moment and it would not look well for San Jose and the Santa Clara valley to have to send just a handful of men to the camp."

Washington Irving.

To Washington Irving more than to any other writer belongs the high honor of being the "creator of American literature."

Irving was not the first American to write good literature, but he was the first American to write in a way to catch and hold the European attention. It was through Irving's writings that the old world was made aware of the fact that there was an American literature. Eldredge, Prescott, Cooper, Poe and others of the pioneers came in for a full measure of praise, but Washington Irving will always hold his title as father of our literature.—New York Journal.

The Diplomat.

"Were you lonesome while I was away, Bertram, dear?" asked his wife when she returned from her visit to her mother.

"Yes, love, I was dreadfully lonesome," replied Bertram dutifully.

"But, why didn't you write to me oftener? I had only two letters from you the whole time I was away."

"Well, you see, my dear, I tried to write you, but I couldn't make the letters sound cheerful, and I was afraid you'd discover how lonesome I was and come right home. I wouldn't have spoiled your visit for the world, love." And he really thought she believed him.—St. Louis Post-Dispatch.

The First Telegraph.

Professor Morse successfully operated the first telegraph line May 27, 1844, between New York and Baltimore.

"Busher" Pierce Assaults Pitcher

Our Athletics defeated Mayfield on their home grounds, last Sunday by a score of 2 to 1. The game was fast, being played in the record time of 1 hour and 30 minutes.

Both clubs scored in the first frame. McKenzie slammed one down to third that was too warm for the baseman, so was safe. Ross flied out to left, Mac going to 2nd. Morton flied out to 2nd. Paul doubled to left, scoring McKenzie. For Mayfield, Vargas fouled out to Pierce. Scheidenberger was hit by pitched ball. Mills got on thru a fielder's choice. Stevens singled, filling bases. Callahan laid one down but the ball was handled wild to home plate and Scheidenberger was forced over. This tied the score. It remained thus until the 8th. Ross, for Campbell doubled to center. Morton struck out. Paul beat out a limit, Ross going to third. Rhyne hit one to third, it was fumbled and the bases were full. Grim and determined marched our weighty "Busher" Pierce to the plate tightly gripping his trusty willow. The heaver heaved and Busher hit the air. The fans raved, hooted, and tried to rattle but Busher's rattle days ceased many years ago. The next one over suited Pierce so he kissed it on the nose to deep center and Ross scored on the throw in. Purdy, next up, struck out.

Mayfield wanted to beat Campbell because we put a kink in Los Gatos. They imported 5 "big leaguers" at a heavy expense but to no avail. Henry Oliver umpired for Campbell and worked well as an "Umps".

2 base hits—Paul & Ross.
Base on Balls off Paul 0 Coleman 0.
Struck out by "g" 4.

Left on bases Campbell 8 Mayfield 3.
Hits off Paul 2; off Coleman 7.
Hit by Pitcher—Scheidenberger.

Time of game—1 hour 30 minutes.
Umpires—Oliver and Fleishman.
Attendance—600 & noisy.

The "Athletics" will meet the San Jose Ark Stars at Sodality Park, San Jose, next Sunday, 2:30 p. m. Turn out, every body, and show some signs of life. The Ark Star club is the one that was here Old Settlers' Day.

A Real Prophecy

The famous prophecy of Mother Shipton was first published in 1488, and republished in 1641. Since that time it has appeared in print at various times. Editor A. B. Smith of Pacific Grove Review published it in his first newspaper, the Milan (Michigan) Gazette, in 1881—the year of the "end of the world" mentioned in the prophecy, and the only thing prophesied that has yet failed to "come thru."

Mother Shipton's Prophecy

Carriages without horses shall go,
And accidents fill the world with woe;
Around the world thoughts shall fly
In the twinkling of an eye.
Waters shall yet more wonders do,
Now strange, yet shall be true,
The world upside down shall be,
And gold be found at root of tree.
Through hills men shall ride,
And nor horse nor ass be at his side.
Under water men shall walk,
Shall ride, shall sleep, shall talk.
In the air men shall be seen,
In white, in black, in green,
Iron in the water shall float
As easy as a wooden boat.
Gold shall be found, and found
In a land that's now not known.
Fire and water shall wonders do,
England shall at last admit a Jew,
The world to an end shall come
In eighteen hundred and eighty-one.

The five necessary factors, in the diet, for complete nutrition are:—good protein; suitable ash mixture, sufficient energy, and two chemical substances of unknown character belonging to the class of materials called "vitamines." Milk contains all of these in suitable proportions for the best growth and development of the body.
